#### Our school initiatives are showing substantial progress toward our targets

After reviewing our 2016 *Investing for Success* agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our initiatives as needed to ensure every student succeeds. Initiatives implemented include:

- Provided targeted reading and spelling resources to engage teachers in the explicit teaching of reading and spelling skills leading to improved student outcomes
- Engaged teacher aides to target explicit teaching of students in reading which increased the percentage of students reaching regional benchmarks
- Employed a skilled Speech Therapist to coordinate the whole school phonemic awareness program and build capacity of P-1 teachers in delivering targeted oral language programs
- Released teachers to discuss with admin staff student data in the areas of spelling and reading with a focus on improving pedagogy
